COCOM Document 3715.25/2B

COORDINATING COMMITTEE

RECORD OF DISCUSSION

ON

ITEM 1525 - COAXIAL CABLE

30th November 1959

Present: Canada, France, Germany, Italy, Japan, Netherlands, United Kingdom, United States.

References: COCOM Docs. Nos. 3700.6, 3715.00/1 and W.P. 1526/1.

The UNITED STATES Delegate confirmed the agreement he had given ad referendum in COCOM Doc. No. 3715.25/1, and the COMMITTEE agreed to redefine Item 1525 as follows:

"Coaxial-type cables (including submarine cables) specially designed for telecommunication purposes (including radar) other than those specially designed or in common use for domestic radio and television receivers.

NOTE: In cases where it can be shown satisfactorily that the equipment is to be installed in circuits directly connecting Sino-Soviet Bloc countries with Free World communication systems, Governments may license specific shipments of submarine cables. Such licences should be reported immediately to the Committee with details and full justification."
